These figures have been drawn from weekly manual returns from individual prisons, which, as with any large scale manual recording system, are subject to possible error(s) with individual data entry and processing.

* An asterisk has been used to suppress values of two or fewer. This is to prevent the identification of individuals. Further disclosure control may be completed where this alone is not sufficient.

Note

Individuals detained under Immigration Act powers include those classified as Immigration detainees, those recommended for deportation and those awaiting deportation.
